Boulder, CO

EDUCATION

University of Colorado, Boulder

Computer Science, Ph.D.

Advisor: *Danna Gurari*

Boulder, CO

Fall 2021 - Present

Western Washington University

Computer Science, BS; Mathematics Minor; Major GPA: 3.77

Advisors: *Scott Wehrwein, Filip Jagodzinski*

Bellingham, WA

Awarded June 2021

WORK EXPERIENCE

Pacific Northwest National Laboratory

NLP Research Intern - Applied Statistics and Comp. Modeling

Richland, WA

August 2020 - September 2021

- **Speaker Diarization:** Investigating the removal of poor audio segments to improve speaker diarization metrics.
- **Information Retrieval:** Developed a simple yet effective pipeline to extract fine-grained labels for a given entity.
- **Multimodal Relationships:** Investigating the relationship between poor ASR results and audio representations (e.g. embeddings, mel spectrograms) to identify untrustworthy audio segments for downstream tasks.

Technical Intern - Biosurveillance Mobile App. Development Competition

June 2020 - August 2020

- **Unity:** Utilized Unity3D to build a training application for the Oculus Go over a 10 week period. This was a competition in which my team took first place.
- **Scrum:** Participated in daily stand up meetings as well as adhere to weekly sprints.
- **Shareholder Communication:** Held weekly presentations with both internal and external shareholders to ensure sufficient progress was being made.

Western Washington University, Computer Science Dept.

Undergraduate Research Assistant

Bellingham, WA

April 2019-June 2021

- **Deep Learning:** Using per-pixel features from deep neural networks to improve lower-level computer vision and image processing tasks such as range masking, seam carving, and graph cuts.
- **Atomic Data Analysis:** Analyzed the effect on the rigidity of a protein-ligand complex when individual atoms are removed from the ligand.
- **A/B Testing:** Created a simple web application for participants to compare label-hidden results to the baseline.
- **Text Classification:** Implemented and tested various classification methods for context classification on research papers into 5 categories.

Teaching Assistant - Intro to Computer Vision

September 2020 - Dec 2020

- **Mentorship & Grading:** Held weekly office hours and graded exams, homeworks, and projects.

Western Washington University, Associated Students

Web Applications Developer

Bellingham, WA

April 2019 - June 2020

- **Full Stack Development:** Utilized Django, ReactJS, Docker, and Azure hosting to create responsive web applications that are used daily by students, faculty, and staff at WWU.
- **Rest API:** Created REST API's using Golang Gin for a lost and found web application while utilizing ReactJS for the client-facing side of the application.
- **Web Accessibility:** Worked within a team to ensure our web pages were accessible and compliant with WCAG 2.0 standards, as well as participate in accessibility sprints when needed. Achieved a SiteImprove score of over 98%.
- **Product Recommendation:** Created a product recommendation system using Golang Gin and a personalized algorithm to suggest possible matches for lost and found items.

AWARDS

- NSF Graduate Research Fellowship Program: Proposal Title: *Spatio-Temporal Feature Matching for Time-Varying Structure from Motion* 2021-2026
- James Lee Johnson Memorial Endowment: Western Washington University Computer Science - 2020
- Tuition Reimbursement: Pacific Northwest National Laboratory - 2020
- 1st Place - Biosurveillance Mobile App. Dev. Competition: Pacific Northwest National Laboratory - 2020
- Federal Pell Grant: 2015-2021

PRESENTATIONS

- Giving Context: Entity Classification from a Single Name: August 2021, PNNL Virtual Research Symposium
- Robust Entity Tagging in the Wild: December 2020, PNNL Virtual Research Symposium
- Semantic Pixel Distances for Image Editing: June 2020, CVPR NTIRE. [Video](#)
- Bash: Fall 2019, [Materials](#)
- Machine Learning: Fall 2019, Winter 2020, [Materials](#)
- API: Winter 2020, [Materials](#)

OUTREACH

- WWU Computer Science Peer Tutor [Program Page](#)
- Sunnyland Elementary School "Hour of Code" [Program Page](#)

TECHNICAL SKILLS

- **Languages:** Golang, Python, Javascript, C#, C, MySQL, Java, R, Shell, Julia, L^AT_EX
- **Technologies & Frameworks:** Databricks, Docker, Git, WandB, PySpark, Linux, AWS S3, AWS Transcribe, PyTorch, Numpy, OpenCV, Pandas, ReactJS, Git, Transformers, Jax

RELEVANT COURSEWORK
